

Dear Parents, Community Leaders, and Business Owners,

Cy-Fair Hockey (501-C3), a non-profit organization, launched its inaugural season in the fall of 2002 for kids between the ages of 6-16 years old and is looking forward to a great season. Our league is designed for the dedicated student-athlete that wishes to improve his/her skills in youth in-line hockey, participating at a high level of competitiveness and sportsmanship. All practices and games are held at the Bear Creek Roller Rink and conducted by experienced, coaches and referees.

Although our goal is to promote competitive in-line hockey by teaching fundamental skills and team ethics, our mission is to create a league that exposes our kids to hockey in a fun, educational, and exciting environment. Based on our past seasons and with the increased number of kids playing each season, Cy-Fair Hockey has been very successful in accomplishing this goal with more than 180 student-athletes playing with Cy-Fair Hockey. Even with this continued success, we still need support and sponsorships from individuals, small businesses, and large corporations.

If you are in a position to make a donation to Cy-Fair Hockey you will be underwriting costly rink fees, team uniforms and referee expenses. Each season, we have sponsored several kids that could not pay their registration fees. We are looking for donations of \$100 (Bronze Level), \$200 (Silver Level), \$500 (Gold Level) and our Platinum Level for donations over \$500. In return you will know your money will be going to help a local, kid oriented league. Also, you will be recognized with frequent announcements at all our games and posting on our website.

To make a contribution to Cy-Fair Hockey, please contact Board Members: Bobby Loving at 281-550-2528, [rloving@odysseycap.com](mailto:rloving@odysseycap.com), or Jeff LaPlante at 281-855-1120, [hockeynhuskies@comcast.net](mailto:hockeynhuskies@comcast.net) .

Yours truly,

David Bradford  
Cy-Fair Hockey President
